

Telecoms Safety Training

ARQIVA RF Awareness

For workers who must access any location with a risk of exposure to hazardous radio-frequency emissions. Delegates will gain a theoretical knowledge of the hazards of RF radiation and their control measures.

Course Content

- ▼ UK legislation and best practices for work near RF transmitters.
- ▼ Policies for sites operated by Arqiva Broadcast Holdings Ltd.
- ▼ Basic theory of radio-frequency electromagnetism.
- ▼ Identification of common RF antenna designs.
- ▼ Safety signage and exposure zones.
- ▼ Medical effects of acute RF over-exposure.
- ▼ Selection and use of personal RF safety monitors.

In combination with AAT01 Roof Worker and/or AAT03 Qualified Climber this certification provides candidates with competence to access Arqiva-controlled transmitter sites.

Course code	AAT05
Training time	1/2 day
Certification	3 years
Your venues	Yes
Student ratio	12:1
