

Renewable Energy Training

BST First Aid

GWO and RenewableUK combined qualification

Enables workers to perform basic first aid and lifesaving procedures within a wind turbine environment.

This syllabus delivers the First Aid module of the Global Wind Organization 'Basic Safety Training' standard, and additional elements defined by the RenewableUK 'First Aid Wind Turbines' standard.

Successful candidates will receive dual certification.

Course Content

- ▼ Understanding of global and UK legislation and agreed practices for workplace first aid provision, training and reporting.
- ▼ Risks and hazards in the workplace.
- ▼ Adult Basic Life Support and primary surveys (ABC).
- ▼ Use of automated external defibrillators.
- ▼ Recognition and treatment of typical workplace injuries and medical conditions within a WTG environment:
 - ▼ *Bleeding, cardiac conditions and shock*
 - ▼ *Trauma and fractures*
 - ▼ *Airway obstruction*
 - ▼ *Burns and chemical injuries*
 - ▼ *Psychological first aid*
 - ▼ *Use of basic first aid equipment (dressings, etc.)*
